

Waltzer seat for one or two people.

Waltzer seat with Waltzer desk for solo working reduces distractions and helps acoustics.

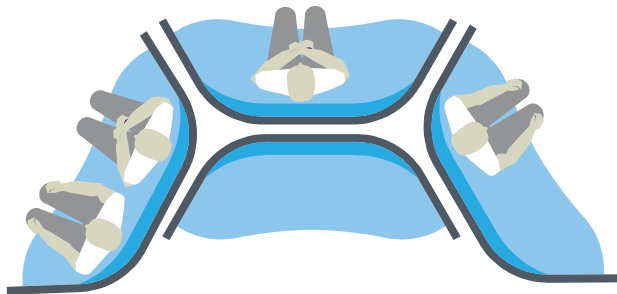

Waltzer seats provide soft-privacy to assist with reading, thinking or ad-hoc meetings.

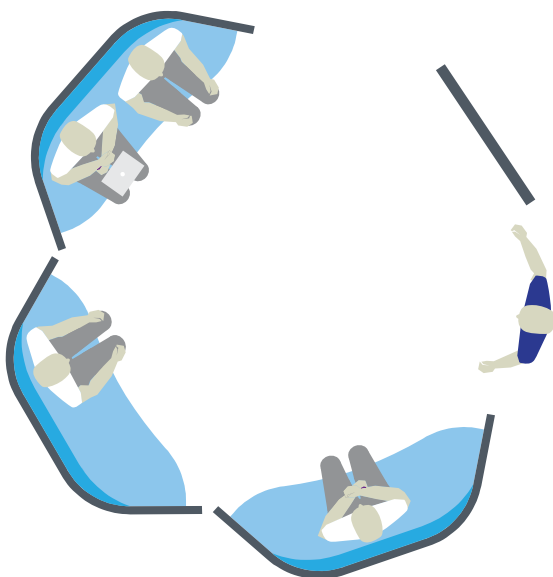

Rapidly reconfigure Waltzer and have a meeting or comfortable face to face conversation.

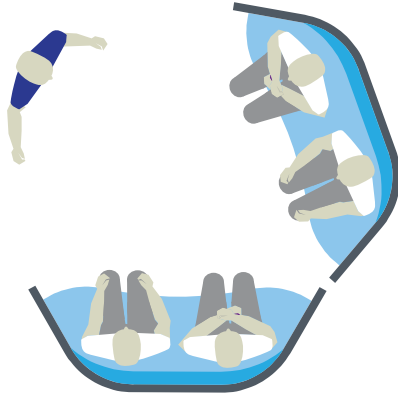

Alternative way of quickly and easily creating soft-private environments.

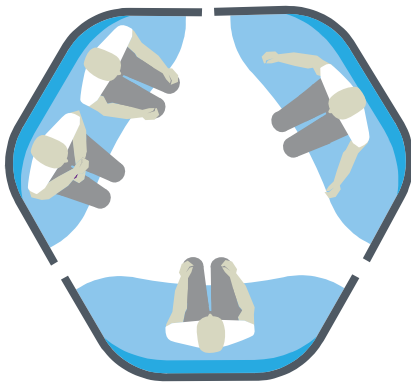

Waltzer is extremely easy to use and move. This gives people autonomy within their space to have some control of their environment.

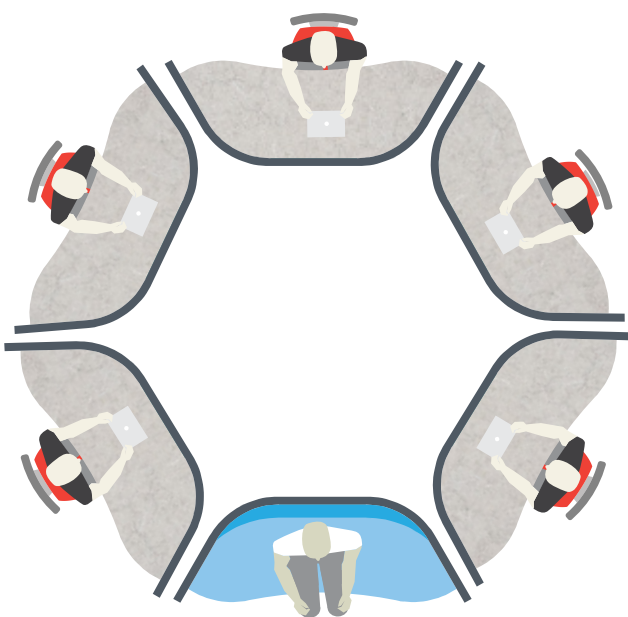

Go from separate working conditions to a semi-private, collaborative presentation meeting. (it can literally take seconds to change the layouts)

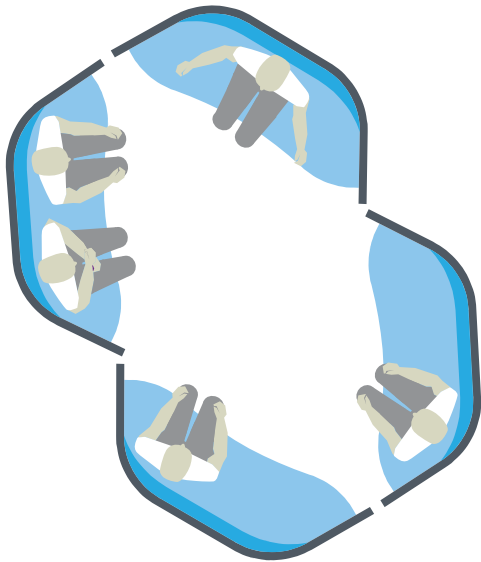

A lecturer style meeting with the speaker clearly communicating their message.

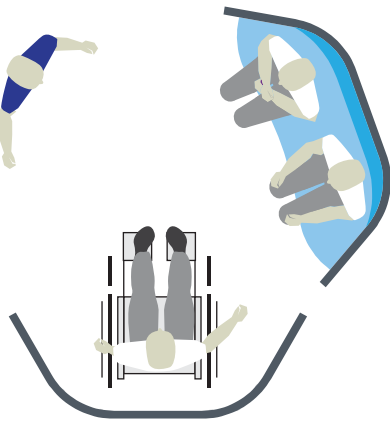

Now the lecturer is included, and it has taken seconds to bring another Waltzer seat into the situation to create a more personal and cove-like communication space.

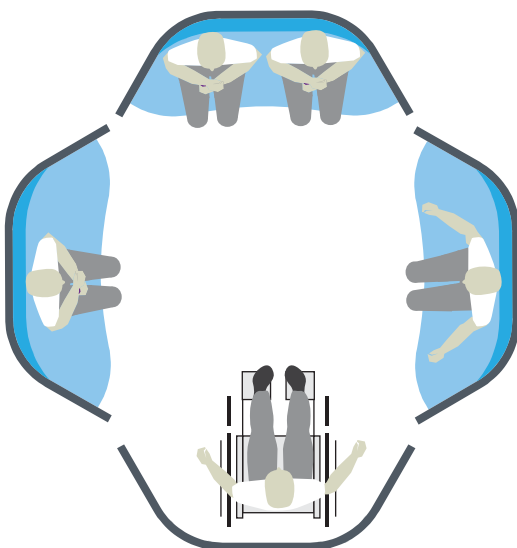

A very interesting way of using Waltzer desk to create a hive like way of working. There is a sense of privacy *and* unity within this easy to create layout.

A larger and more obscure meeting cove. Simple to make thanks to our Jewel caster, which provides a simple design to lock and unlock, ultra smooth transit and unrivalled stability.

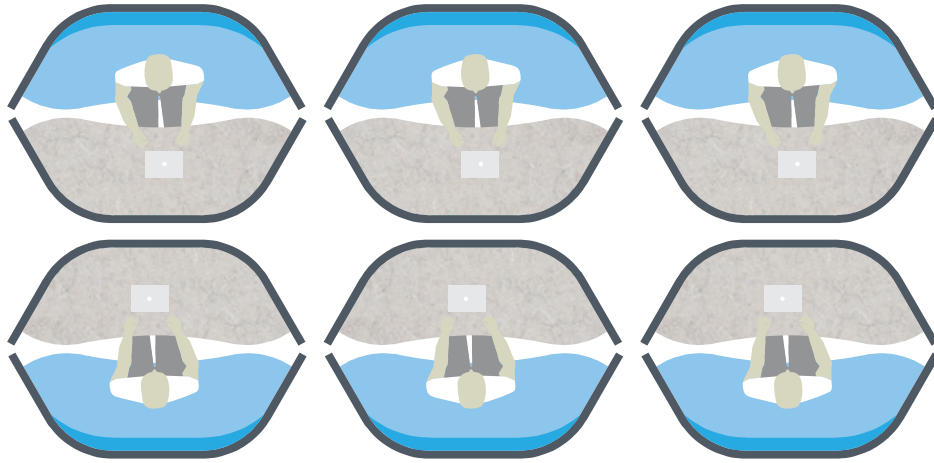

Waltzer screen in this scenario creates an opportunity to include wheelchair users in the lecturer style meeting with the benefits of soft-privacy.

Waltzer screen in this scenario creates an opportunity to include wheelchair users in the cove-like meetings.

Using Waltzer seat and desk, teams can create individual team pods for solo working.

When some or all of the team need to meet, they can quickly unlock and roll their Waltzer into a comfortable meeting position.
