

# Bebop **muzo**

Improve posture and strengthen core muscles whilst sitting or perching on Bebop.

Bebop active seats were developed as a fun way to strengthen core muscles and improve posture while sitting or perching. Easily moves around your space via the pull handle and glide/swivel base. Perfect for impromptu needs, team working and versatile spaces.

## Performance points

### Mix and match

Mix the seat and body fabrics to create appealing and unique finishes.

### Strength and comfort

Plywood interior core make Bebop robust and the supportive foam cushioning creates a pleasurable sitting experience.

### Pull handle

Easily move Bebop around with the soft handle.

### Swivel base

Rotates beautifully thanks to the strengthened swivel wood base.

## Finish options

Seat and Body

Camira — Blazer  
Gabriel — Europost 2  
Morbern — Maverick  
CF Stinson — Fuse 2.0  
Mayer — Hexagon  
Maharam — Facet
