Desktop Powerball

Finishes

Standard Colors

Black (BL)

White (WH)

Technical

1. Hemisphere
2. Sockets for AC and USB power (3 in total)
3. Side exit for power cable only
4. Power socket can be substituted with TUF USB
5. Power can exit via the base

Sockets

The top has 3 inlet/outlet sockets. Each socket can be specified with either a Nema (USA) electrical power socket or a TUF (Twin Usb Fast charge). The Nema socket is rated at 15A in line with UL962A. The rating is the same whether 2 or 3 sockets are specified. The TUF charger is currently rated at 2.3A max combined across the 2 USB ports.

Desktop Powerball

Installation

Base power cord

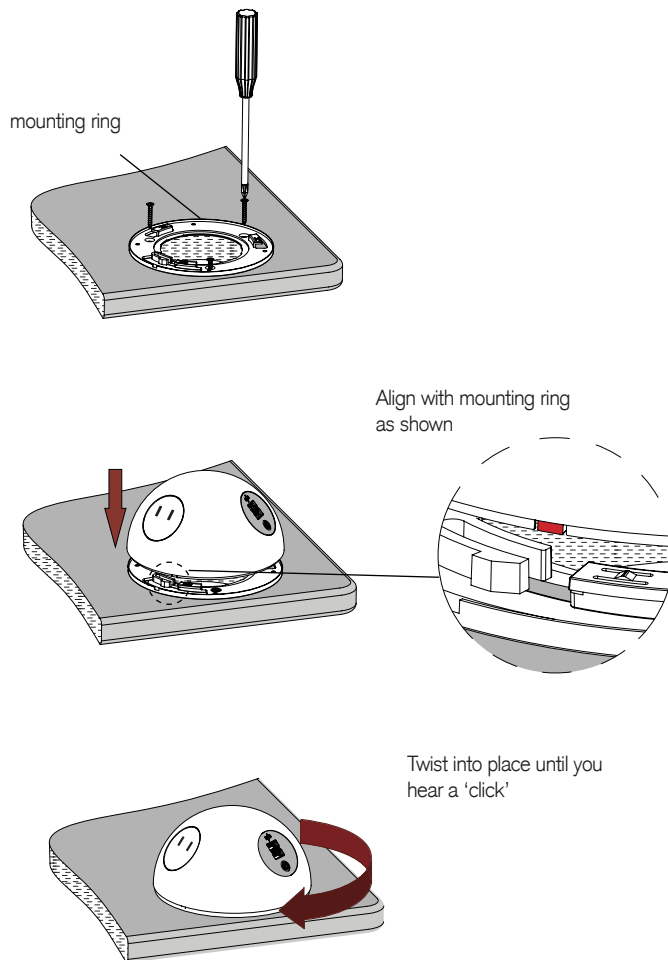

Base power cord entry Desktop Powerball's are supplied as standard with the "clamp 80" kit for secure mounting to an 3.25" grommet hole. For screw fixing, Desktop Powerball can be ordered with just the bayonet mounting ring.

Side power cord

Desktop Powerball is fitted with silicone rubber feet to provide grip and stability. Special brackets can be supplied to order for fitting the side power cord entry Desktop Powerball to tool/equipment rails.

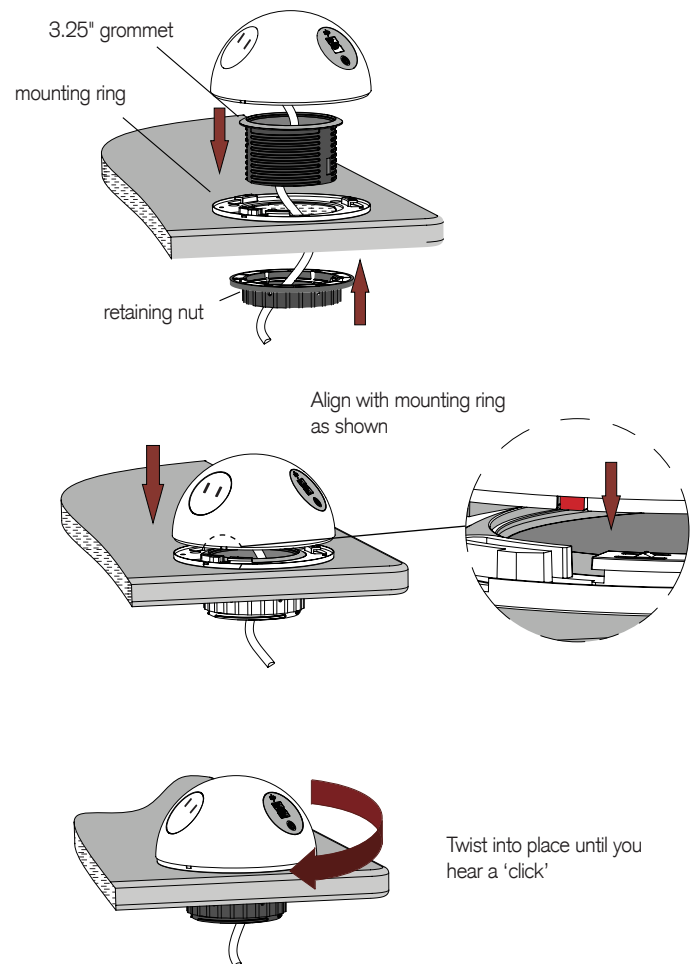

Mounting adaptor ring screw fixing

Place mounting ring over 3.25" hole.
Screw mounting ring in place.

Clamp 80 Kit

Place mounting ring over 3.25" hole. Place 3.25" grommet into mounting ring and screw up retaining nut until firmly in place.
