Indoor/Outdoor

An Indoor/Outdoor range of products for the 21st Century.

Expertly crafted, contemporary furniture that withstands life in dynamic indoor and outdoor environments including learning spaces, cafes, terraces, break-out and buzzing creative studios.

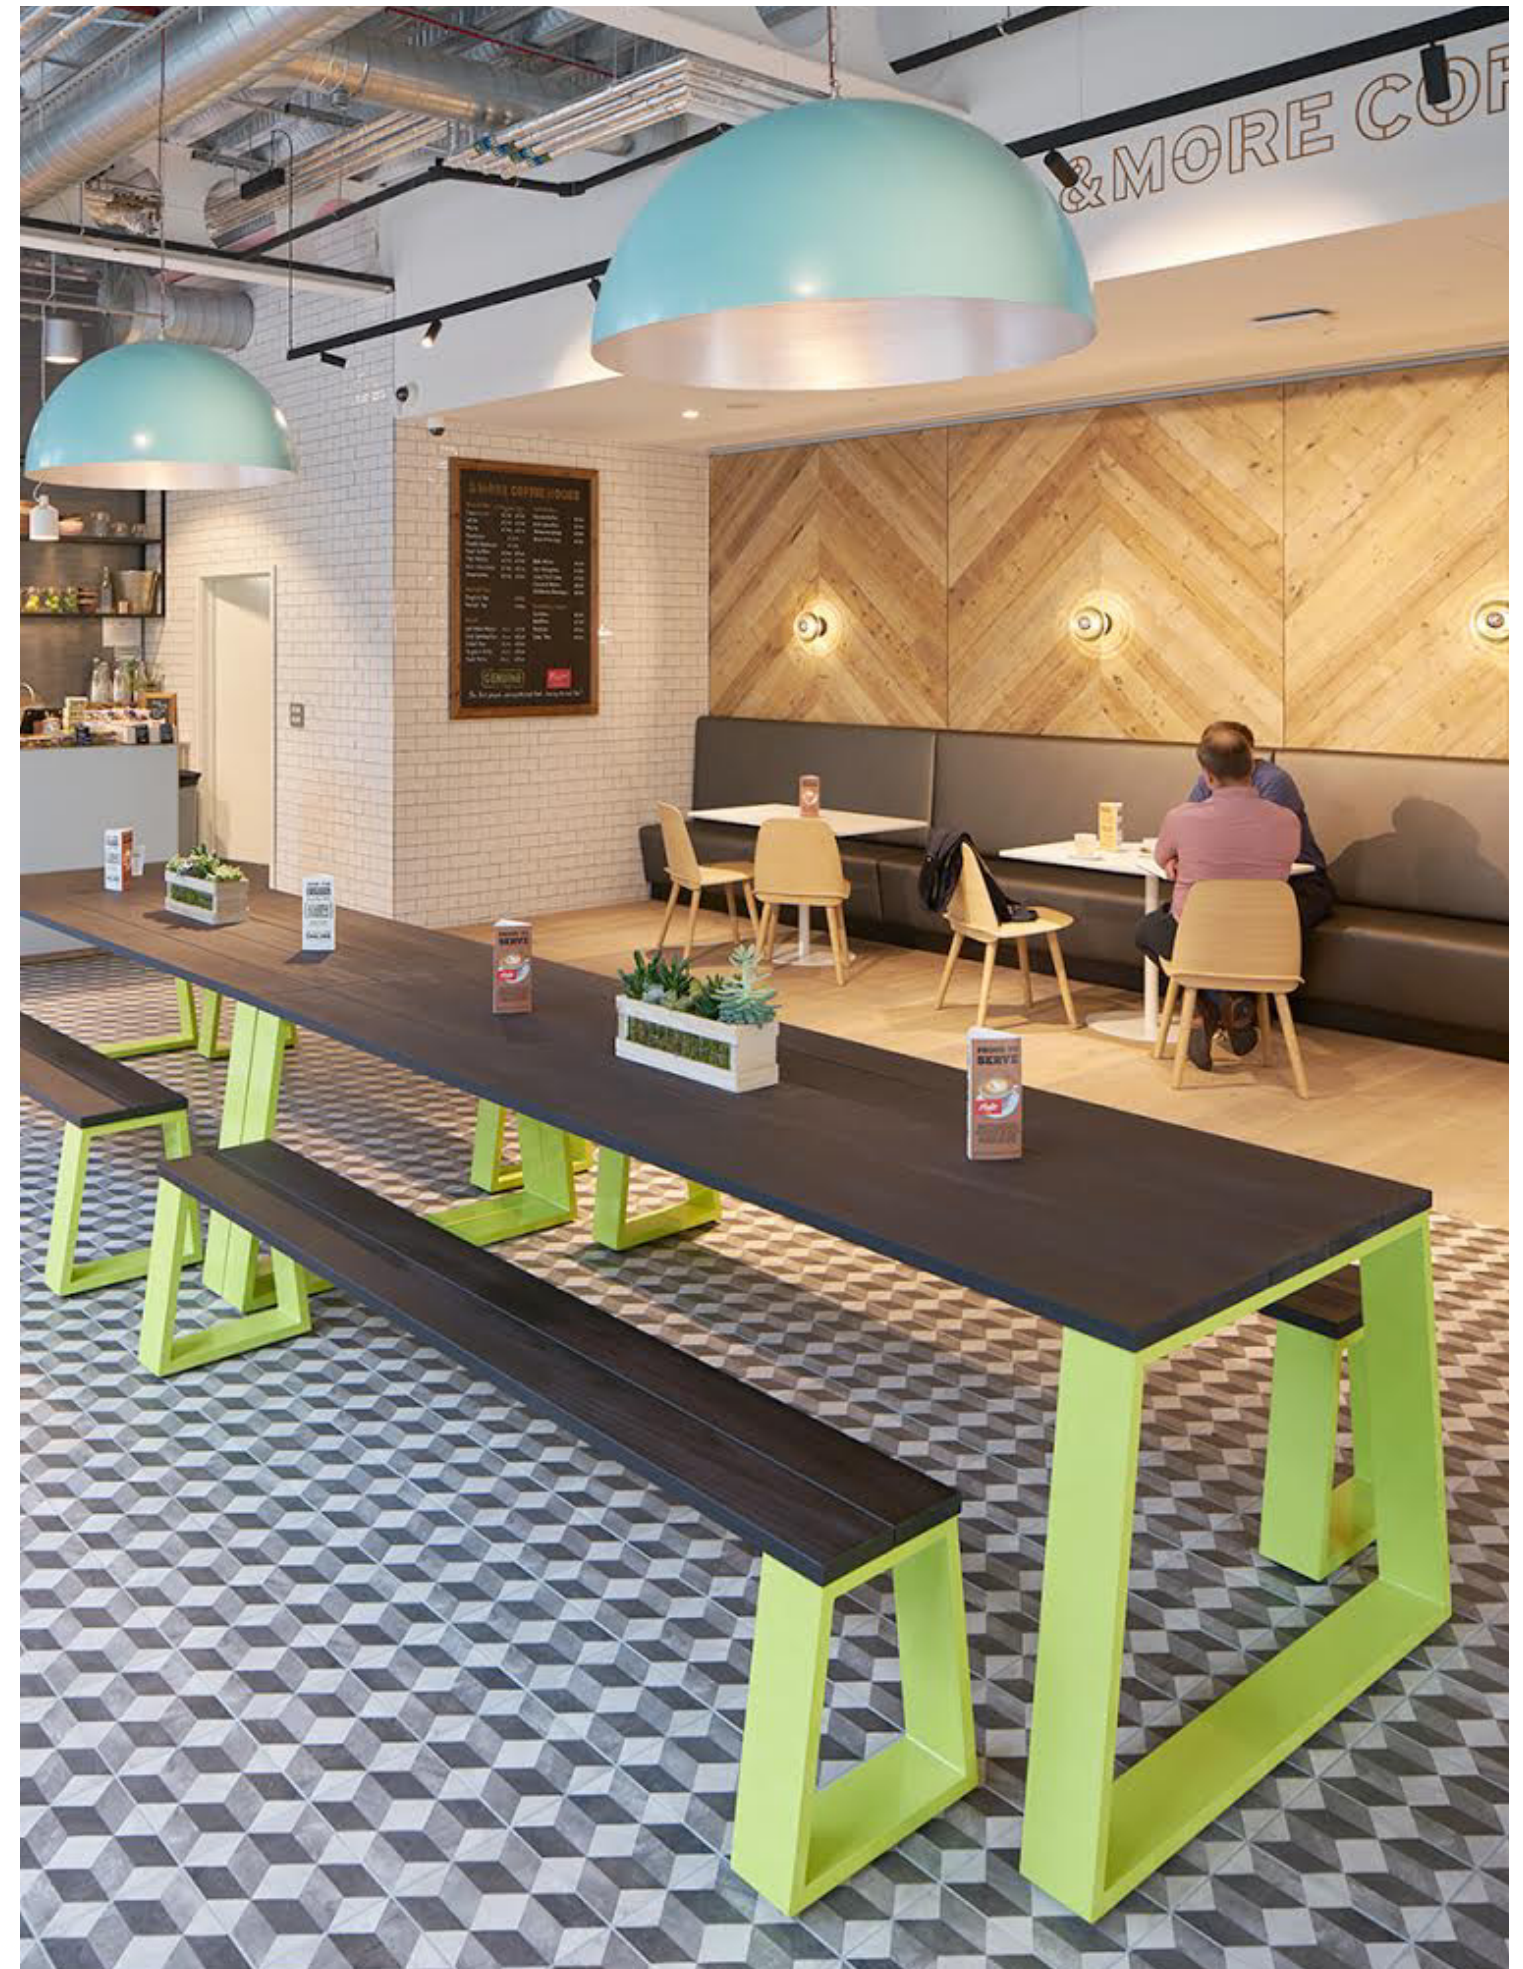

Quality materials, vibrant color and beautifully engineered details are at the heart of this range.

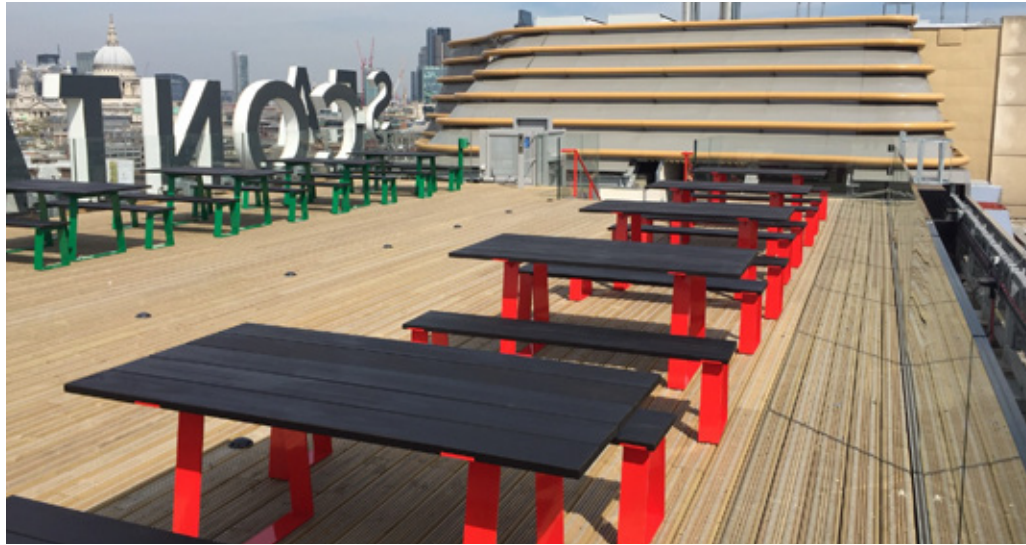

Block

Powder-coated aluminum and hardwearing Iroko come together in the Block Table and Bench, a show-stopping range that has made a visual impact in some fantastic locations. We also offer the Block End Bench, which is all-aluminium with solid ends.

Edge

Edge was conceived as a dash of boldness for inside and outside space. Designed with a chunky aluminium base that looks splendid, powder-coated in a vibrant colour, both the Edge Table and Bench are available with an Iroko or Birch Ply top.

Alfresco Mini

Combining a brushed, stainless steel frame with either a solid Iroko timber top for outside use, or birch ply with tinted lacquer for inside, Alfresco-Mini's super solid, tri-star construction means it has triple the strength.

Tough, hard wearing materials and stain resistant frame with an easy access to benches make it perfect for Canteens, Breakout and Public Spaces.

Town

A contemporary reworking of the European country chair. This light and stackable design adds color and a positive aesthetic to Cafes, Terraces and other outdoor spaces that invite friendly conversation and connection.

Java

A robust cafe table for indoor and outdoor use. Aluminum base keeps the table firmly in place and prevents rusting. Options for solid wood or laminate surfaces and an umbrella option is available.
