X-bench Manual

X-bench: As an accessory to the Xbrick, I help you build a bench in no time. Just put it together and sit down!

Here are the most important facts and figures as well as instructions for use - what you can do with me without any problems and what you should avoid.

Facts and Figures

- Material: spruce 3-layer board
- Surface: matt lacquered
- Measurement: 80 x 14.5 x 2.5 inch
+71 x 14.5 x 2.5 inch
- Construction: to plug in
- Cleaning: wet washable with soap and water

Please note when using it:

The bench should be used together with at least two Xbrick. Be sure to place each Xbrick on the side of the bench.

How to assemble me?

Follow my short instructions for a safe and quick installation.

- 1 Add the X-bench by applying light pressure on both Xbrick.
- 2 One-sided pressure can cause the bench to tip. Therefore, make sure to attach the Xbrick to the side of the edge.
- 3 The X-bench can also be used with the X-lean through the engagement holes and an extra Xbrick.
- 4 By using several Xbrick, X-bench, X-connectors and X-belt, different heights can be created, as well as a standing table or shelf.

X-table Manual

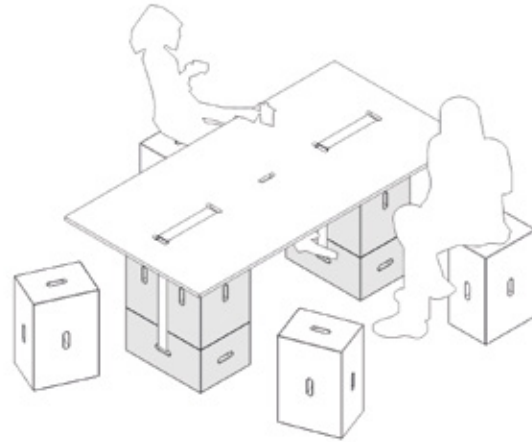

X-table: As an accessory to the Xbrick, I help you build a table in no time. Just assemble it and sit down!
Here are the most important facts and figures as well as instructions for use - what you can do with me without any problems and what you should avoid.

Facts and Figures

- Material: spruce 3-layer board
- Surface: matt lacquered
- Measurement: Table top: 71 x 35.5 x 0.75 inch
Clamping bars: 59 x 19.75 x 0.75 inch
- Construction: to plug in
- Cleaning: wet washable with soap and water

Please note when using it:

The x-table should be used together with at least four Xbrick, two X-connectors and two X-belt.
Avoid the risk of tipping.

How to assemble me?

Follow my short instructions for a safe and quick installation.

- 1 Plug two X-brick together with one X-connector.
- 2 Attach the tabletop, by applying light pressure, to both Xbrick towers.
- 2a Make sure that the Xbrick is placed far out on the tabletop to ensure the best possible stability.
- 3 Connect one Xbrick tower at a time to the Xbelt on the tabletop. Use the holes provided for this purpose.
- 4 Add more Xbrick to create different heights.
- 5 To carry the table top, please use the insertion hole or carry in pairs.
