

A-Frame **muzo**

Designed by Jennifer Newman, A-Frame is a contemporary take on a classic shape. Welded using high quality recycled aluminum, its simple silhouette is ideal for inside and outside areas like canteens, breakout spaces, gardens and terraces.

A central groove lends extra support while a hardwearing powder-coated finish in any color, toughened with lacquer, gives A-Frame a cheerful, robust quality that will stand the test of time.

For outside and inside use
Terraces - Canteens - Breakout Areas
