

Kite[®] muZO

A mobile, flip-top folding table system that makes life easy.

The vast number of configurations that can be achieved with Kite tables enables users to tailor an area in the moment, to suit their needs and to support interactions, for all, during presentations. Personal space of 30 inch is achieved no matter which layout you create.

Kite is more than a table system, it is a dynamic, fluid, business tool. You can add tables to expand when needed, rearrange them in seconds whenever called for, efficiently store/nest them when required and even level tables on uneven floors.

Learning

Wirelessly powered meetings

Higher Education

Meeting & Training

Classroom

Easy to fold and move

Simple nesting

Wirelessly powered gatherings

Performance points

Jewel caster

The caster ensures Kite can perform like fixed-frame tables when the breaks are engaged. The dual-locking mechanism prevents the wheels rolling and twisting.

Narrow profile when folded

When in transit, the tables can fit through narrow doorways or corridors.

Levelling

2 inch of levelling potential ensures the table-tops meet flush on uneven floors.

Inclusive usability

Kite tables can be quickly and easily assembled by one person - no heavy lifting and no need for a trolley

Nesting

Kite tables are easily folded, moved and nested allowing you to make the most of your available space.

Accessories

Modesty panel

Modesty panels can be fitted to all Kite tables and are available in matching finishes or in perforated steel. Modesty panels can be easily removed or added to tables at any

Power and data

A range of soft wired power and data units can be fitted to all Kite table systems.

Cable management

A range of cable management products can be used to neatly accommodate cables into the Kite table systems.
