

# Tall Kite **muzo**

## A mobile, folding, stand and meet table system

Tall Kite is a portable, folding, stand and meet table. Our unique Jewel caster ensures magnificent stability, one person portability and no trip hazards in transit. Tall Kite clusters naturally become a magnet for idea exchange, a business tool that encourages impromptu meetings in a healthy manner.

Tall Kite still folds like Kite, allowing you to optimize the use of space, whether it be in a small room or a large office. The unique folding mechanism means it only takes one person to clear away the tables. The tables still easily nest away, allowing you the opportunity for a multi-dimensional space.

Easily arranged by one person, a table configuration allows users to create their own meeting and working areas with the option to sit or stand.

## Performance points

### Jewel caster

The caster ensures Tall Kite can perform like fixed-frame tables when the breaks are engaged. The dual-locking mechanism prevents the wheels rolling and twisting.

### Narrow profile when folded

When in transit, the tables can fit through narrow doorways or corridors.

### Levelling

2 inch of levelling potential ensures the table-tops meet flush on uneven floors.

### Inclusive usability

Tall Kite tables can be quickly and easily assembled by one person - no heavy lifting and no need for a trolley

### Nesting

Tall Kite tables are easily folded, moved and nested allowing you to make the most of your available space.

## Accessories

### Modesty panel

Modesty panels can be fitted to all Tall Kite tables and are available in matching finishes or in perforated steel. Modesty panels can be easily removed or added to tables at any

### Power and data

A range of soft wired power and data units can be fitted to all Kite table systems.

### Cable management

A range of cable management products can be used to neatly accommodate cables into the Kite table systems.
