

Xbrick  
**muzo**

Unmatched in its simplicity, Xbrick is a multifunctional module that is perfect for spaces that are used dynamically. Use Xbrick "in the moment" as a seat, standing aid, stage or quickly convert into a base to support a bench and table. The super strong but lightweight structure makes Xbrick easy to transport and enjoyable to reconfigure.

Xbrick is part of a new generation of Muzo products that embraces the natural curiosity of children and facilitates experiential learning. With a range of wonderful accessories such as lightweight "flomo dry erase boards & easels" the creative possibilities are endless for both indoors and outdoors.

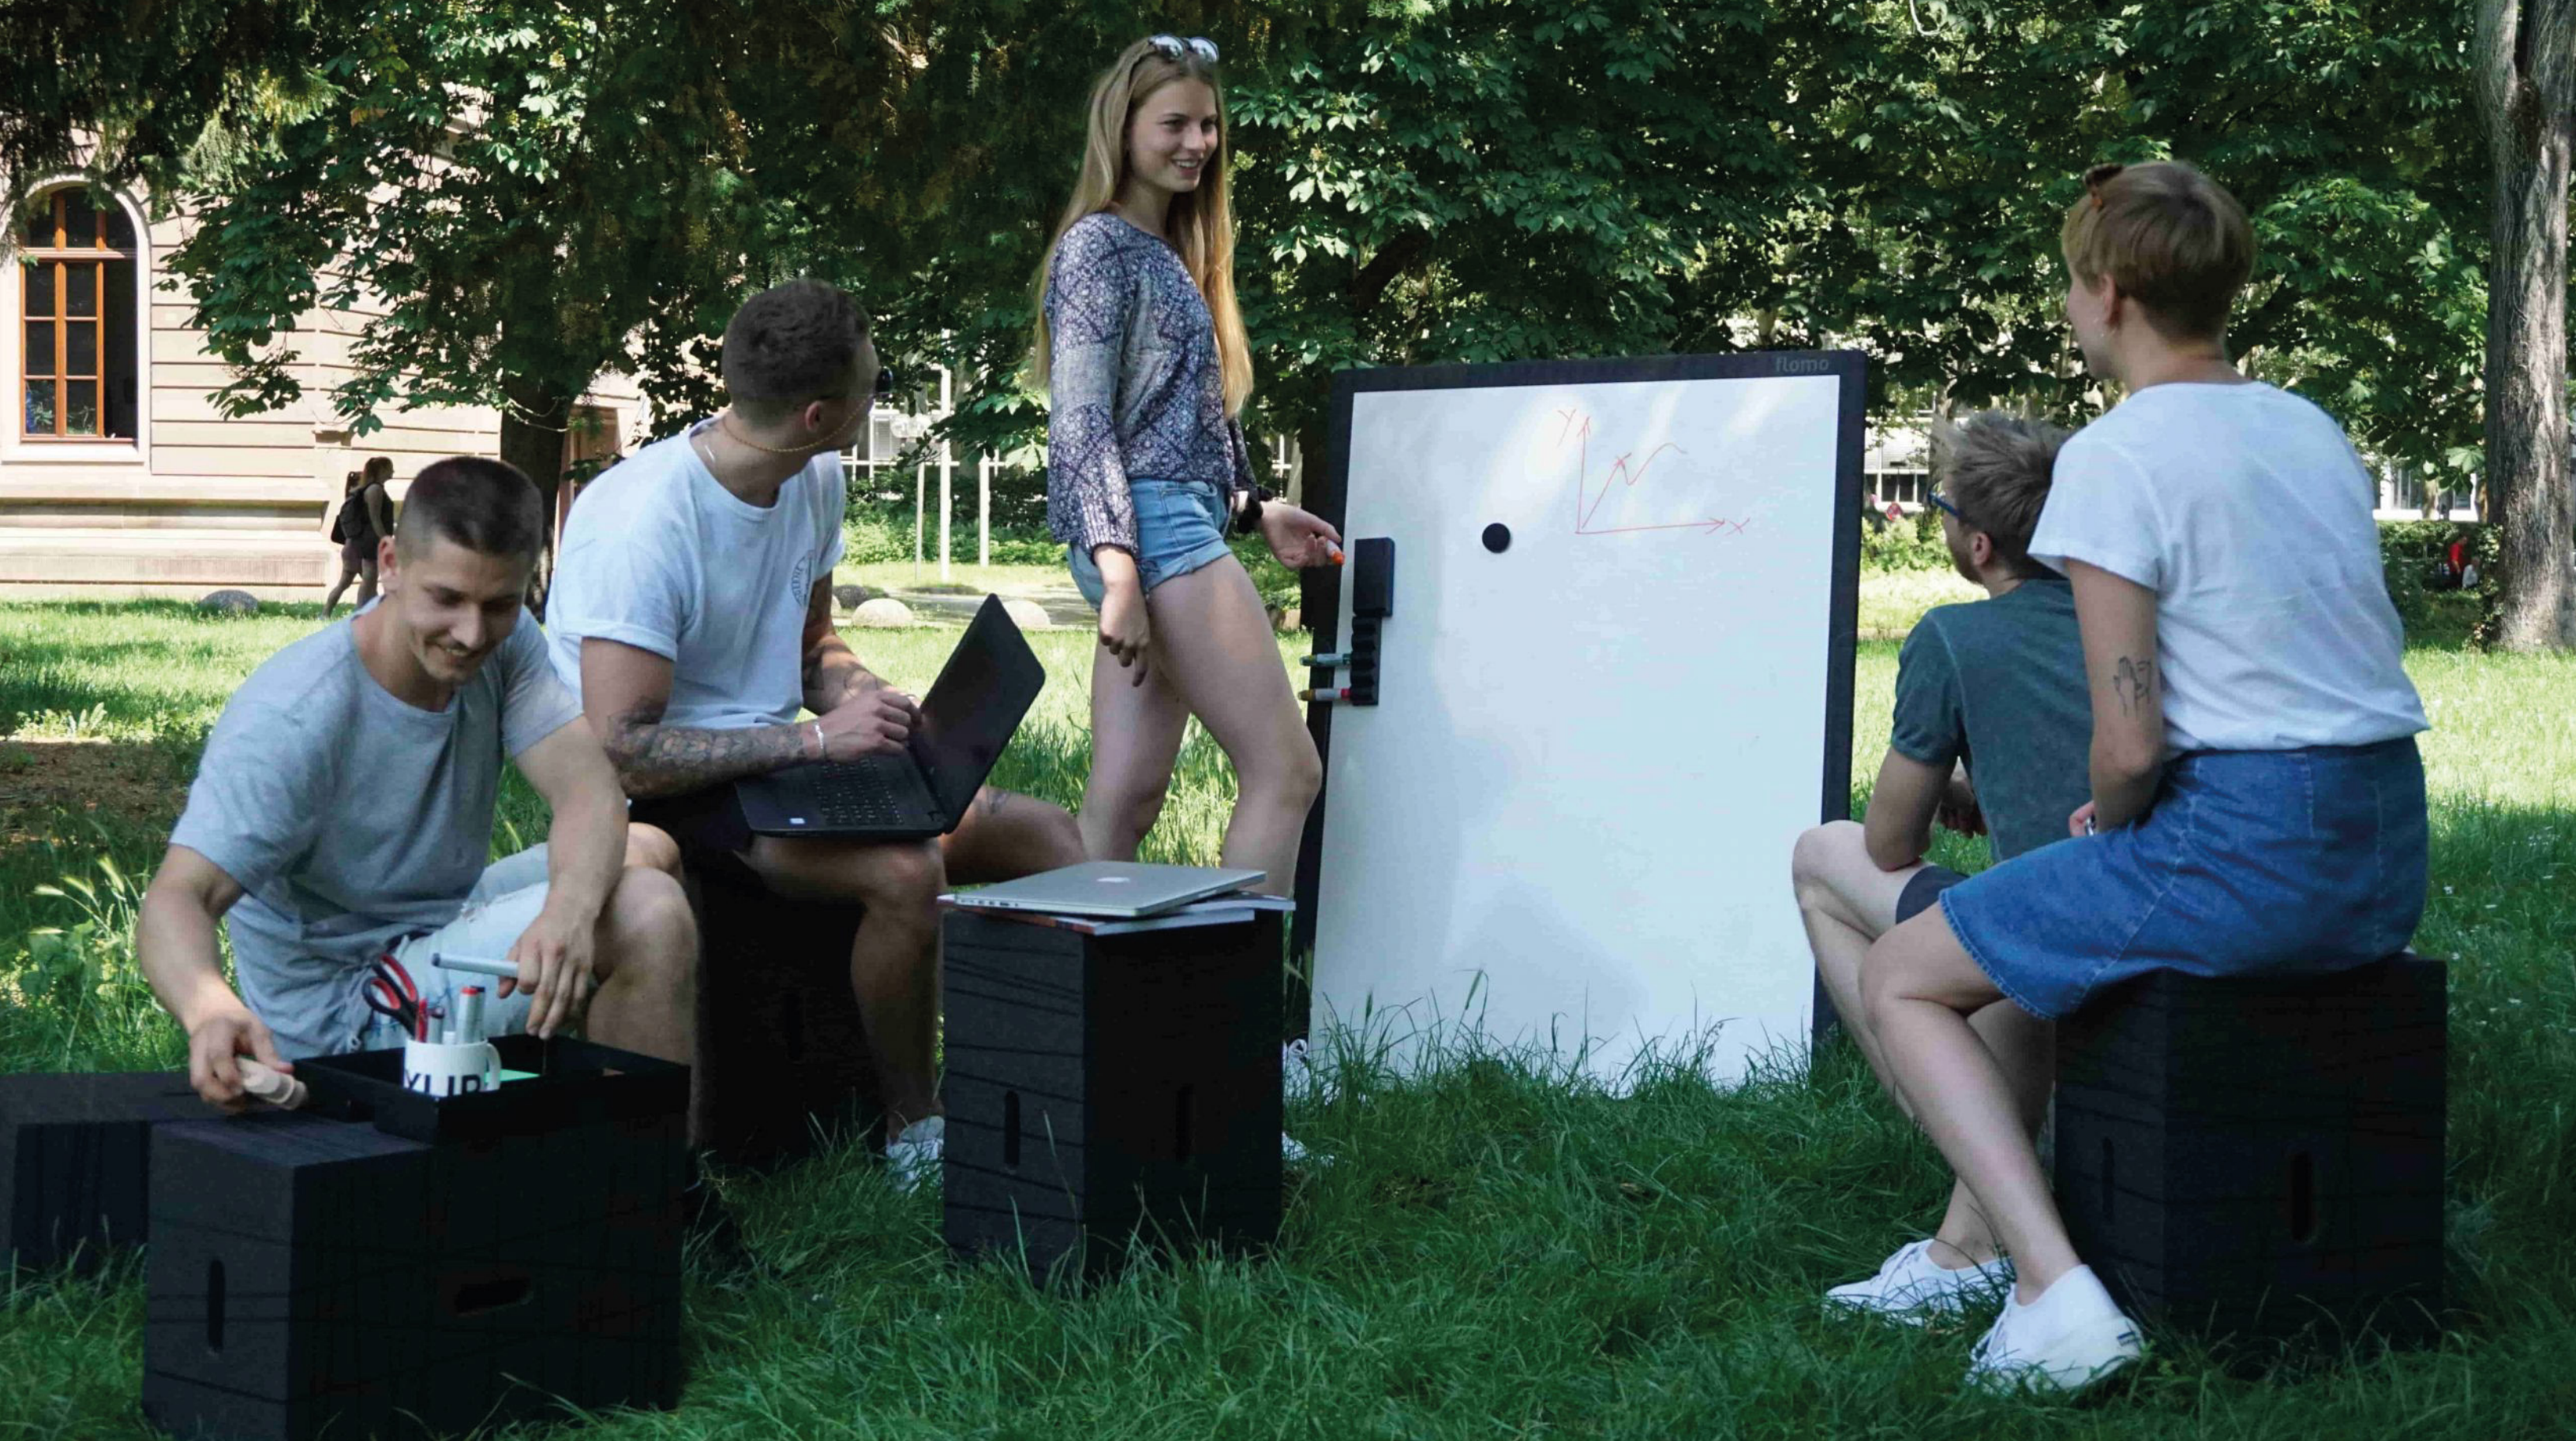

Work together using Xbrick as both the seat and support for the tables. When finished, it is easy to make space for another configuration or store them neatly away.

Xbrick encourages interaction and communication. Its users are always on the move, whether in the office, at home, in the workshop, or at learning locations from schools to universities, whether indoors or outdoors.

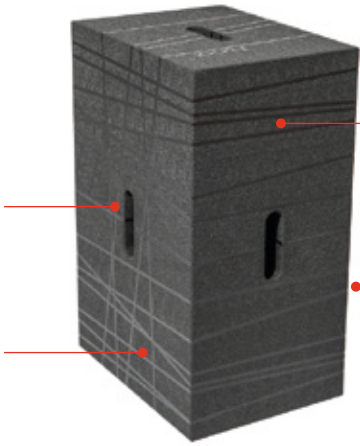

Performance points

**Handle**  
Grip handle also works as a recess to insert the Xconnector, which allows the user to firmly connect another Xbrick.

**Cleaning**  
easy-to-clean and water-resistant material makes it even more versatile for indoors and outdoors.

**Custom Branding**  
A custom branded Xbrick is an option

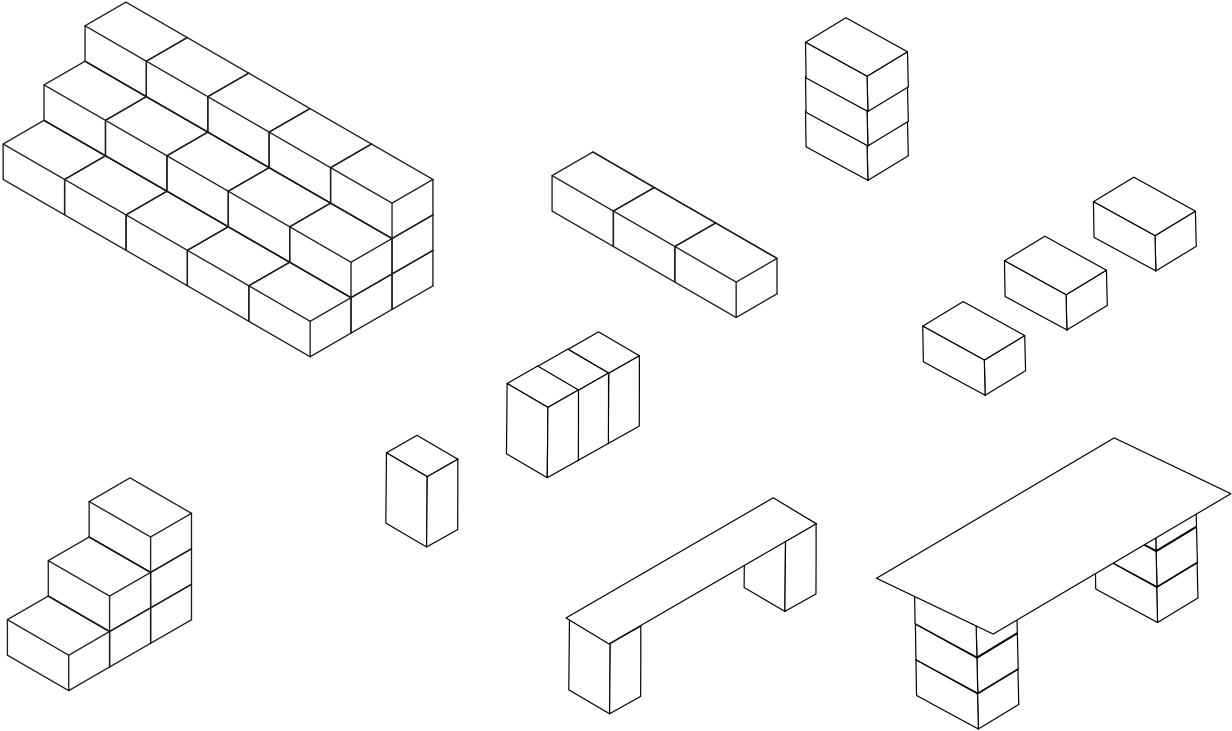

**Light transport weight**  
At 3lbs, Xbrick is very easy to transport.
