

M-Pod

muzo

A privacy chair for breakout areas in office, education and library spaces.

Performance points

Choose your look
You can specify the back and seat cushions in different colors to create a unique aesthetic.

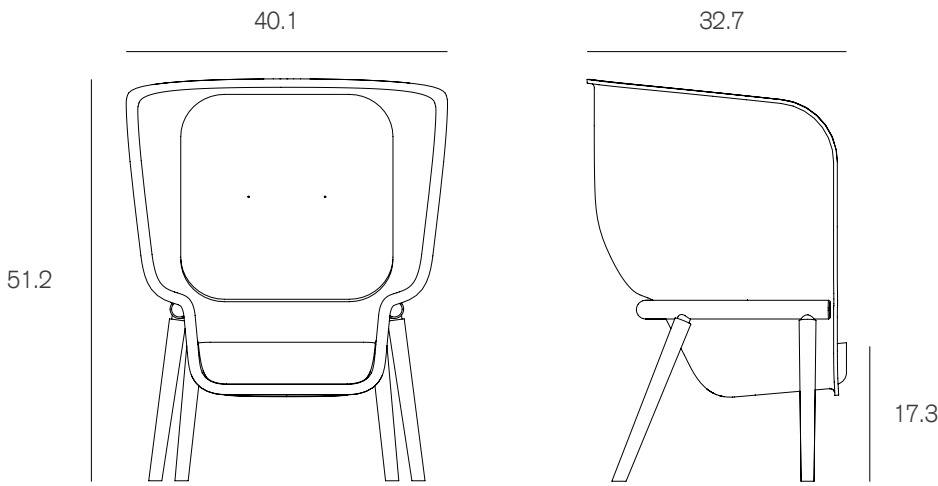

Recyclable shell
The shell of the Pod is made out of recycled PET bottles and is the largest form ever produced utilizing this special PET Felt technology.

Acoustics
Thanks to the unique production technique, M-Pod has sound dampening properties to increase the sensation of privacy.

Frame
Made from solid ash, when ordering a minimum of 5 M-Pods in the same design, the color of the frame can be customized.

Dimensions
