

muzo Lookbook

Muzo make mobile and
functionally adaptive furniture
for the 21st century.

Kite®

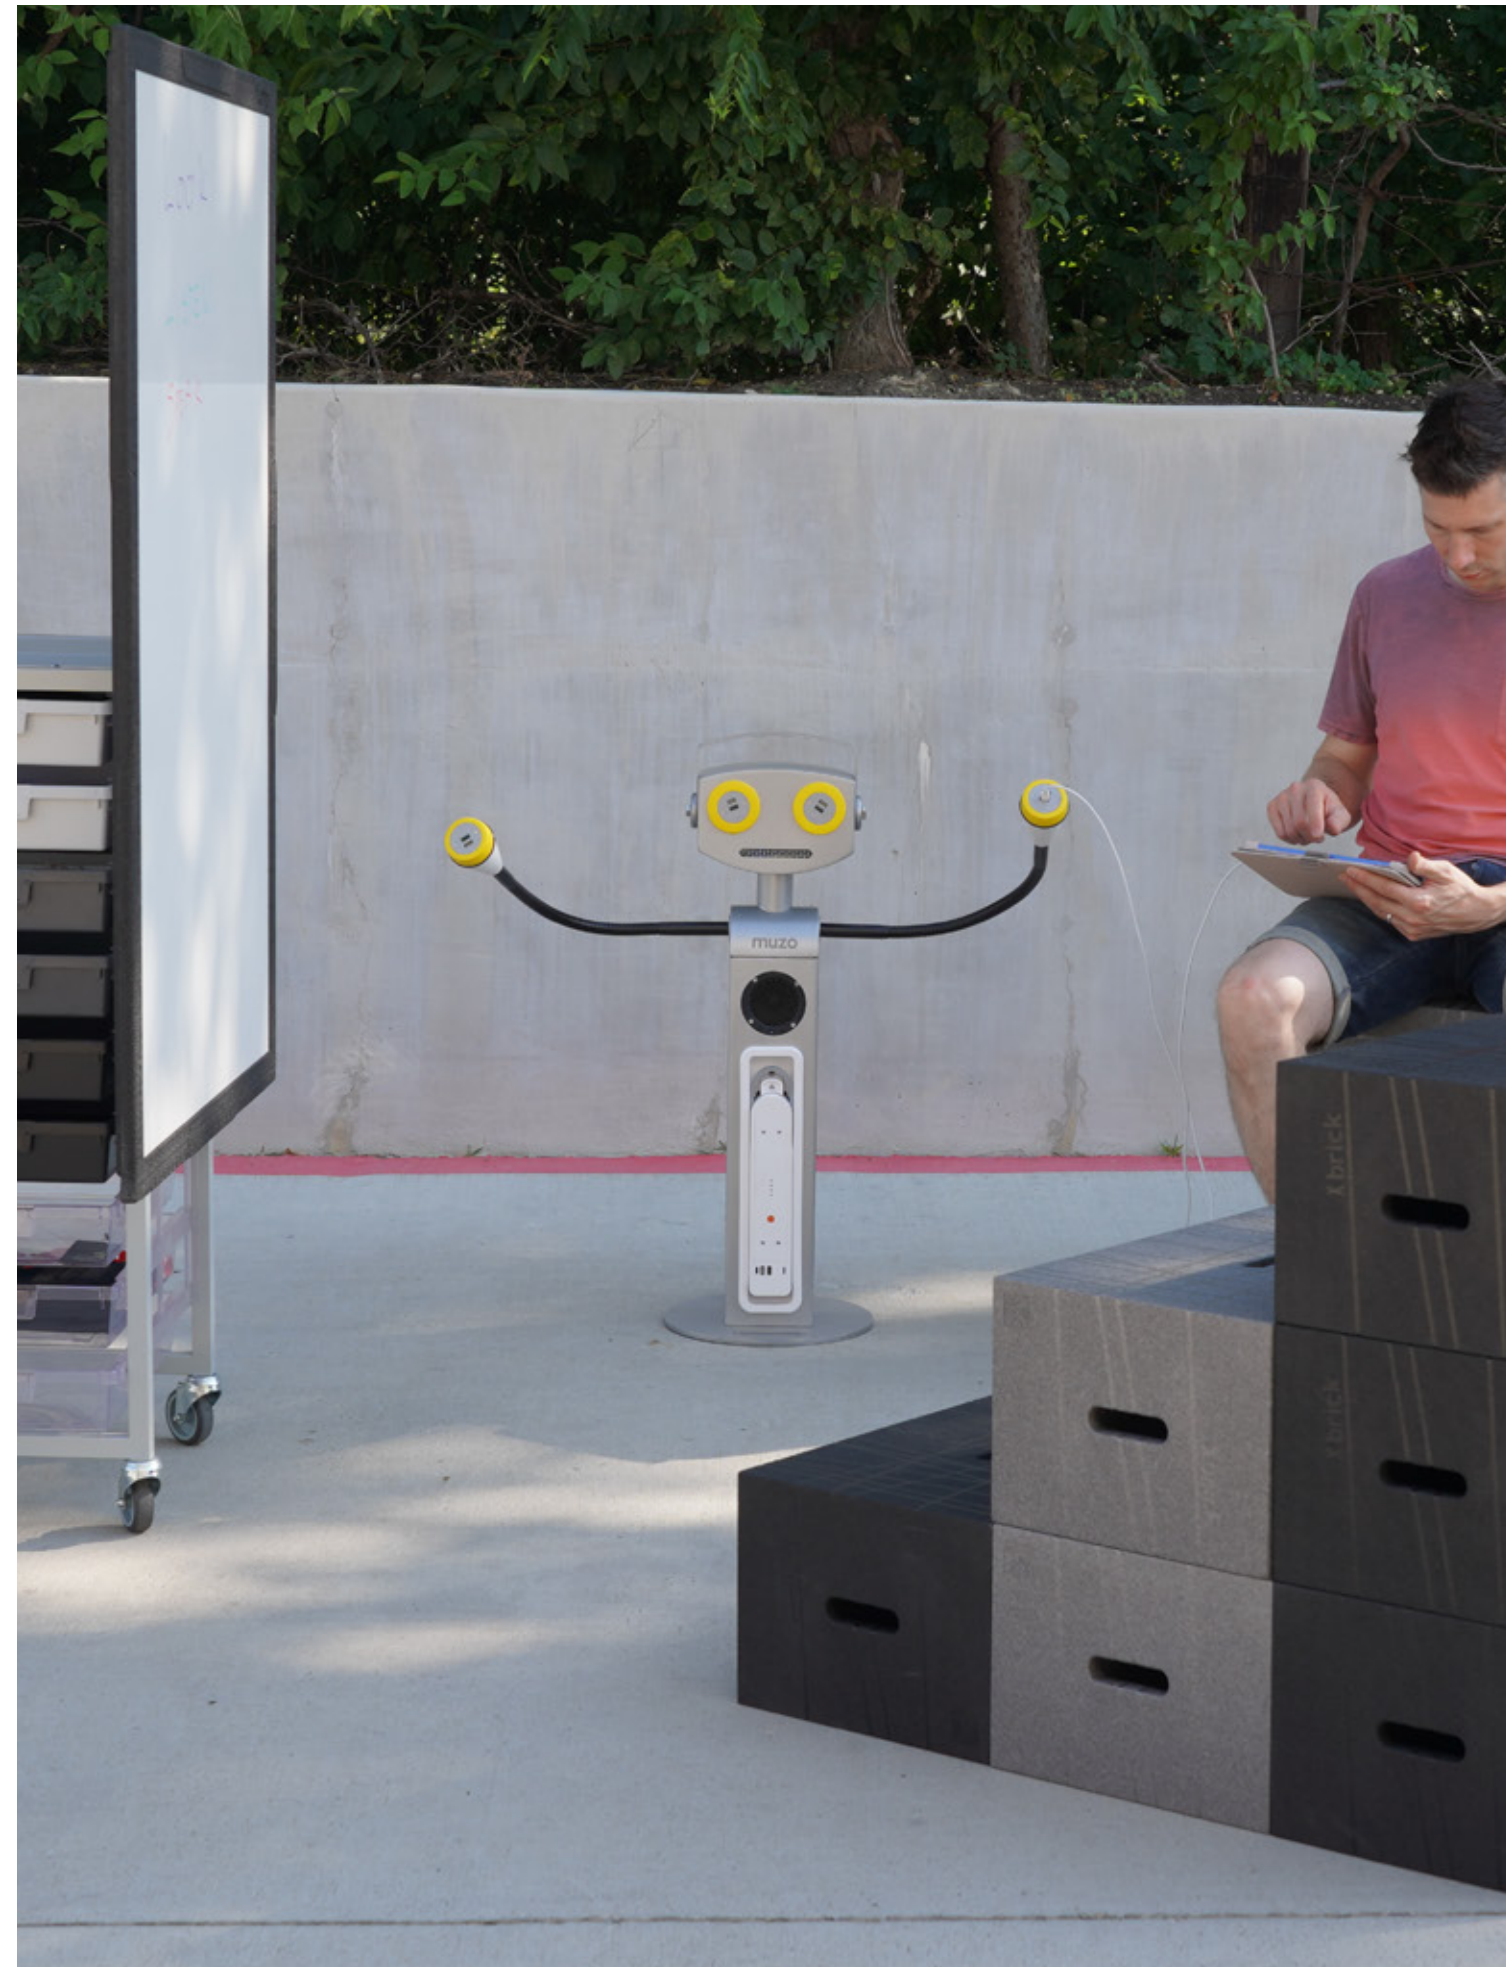

Unlock the potential of your space with Kite®.
The world's best mobile, folding and nesting table system.

Juice Bot®

Add a sense of fun to any learning environment with Juice Bot®. Supplies wireless power and the Aux version has a bluetooth speaking that delivers crystal clear sound.

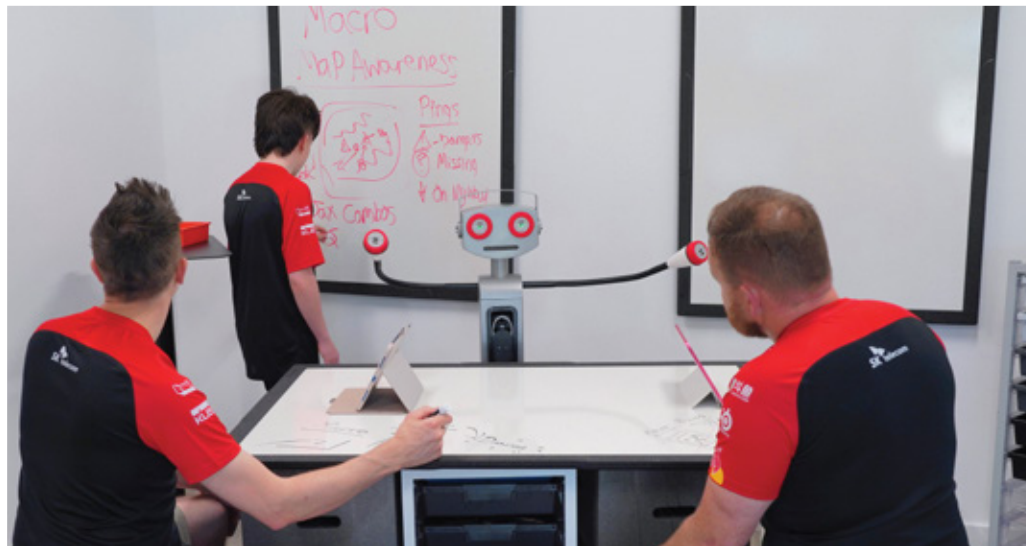

Xbrick

Xbrick is a flexible multifunction module, suitable for indoor and outdoor use.

Flomo

A light-weight, magnetic, writable board that is highly durable and works great both indoor and outdoor.

Ping Pong

All work and no play - not the case with Ping-Pong. Hardwearing and rust-resistant, this heavy-duty aluminum table can withstand wind, rain and the most passionate of games.

A-frame

The A-Frame is a contemporary take on a classic shape. Welded using high quality recycled aluminum, its simple silhouette is ideal for inside and outside areas like canteens, breakout spaces, gardens and terraces.

LJ1

Made out of recycled PET bottles, the design of the seat seamlessly blends tradition with environmentally friendly innovation.

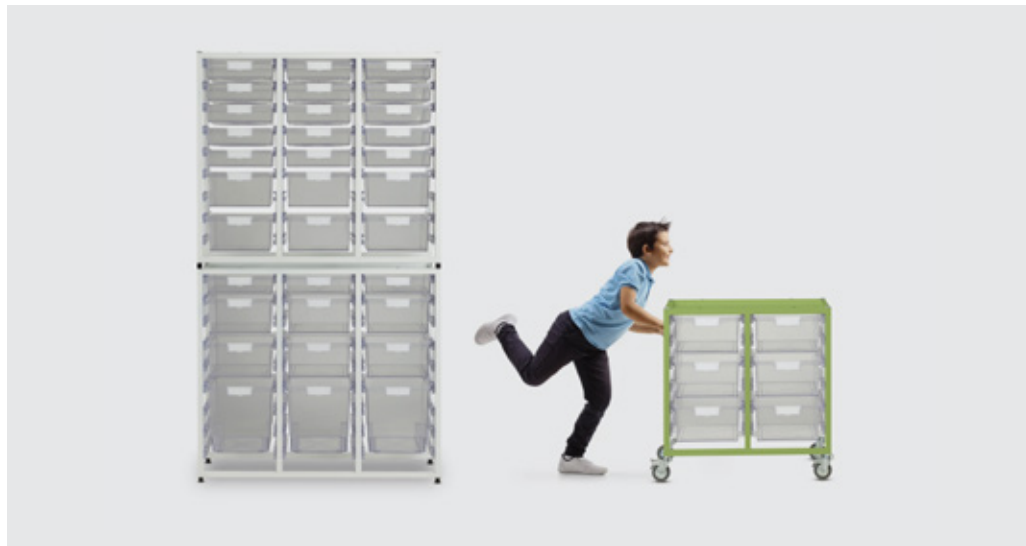

Versatilis

Versatilis is a groundbreaking table system that gives you the hassle-free ability to create a diverse range of non-folding customized tables in heights ranging from 15 to 41 inch.

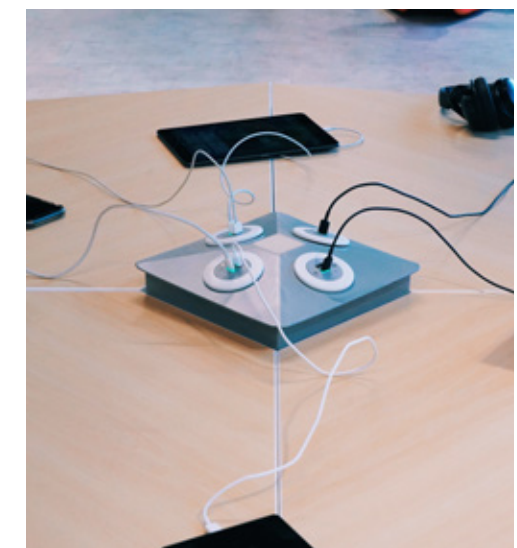

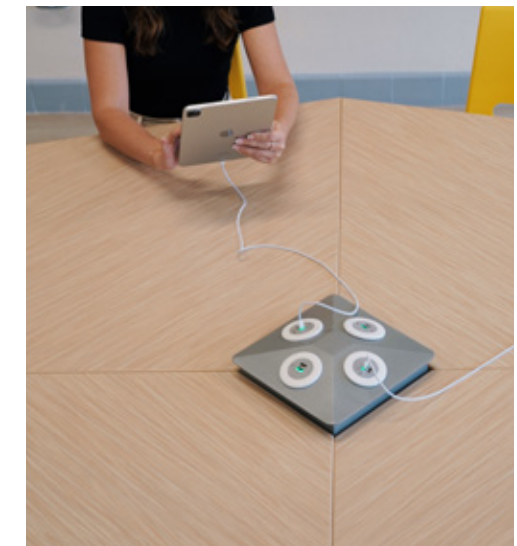

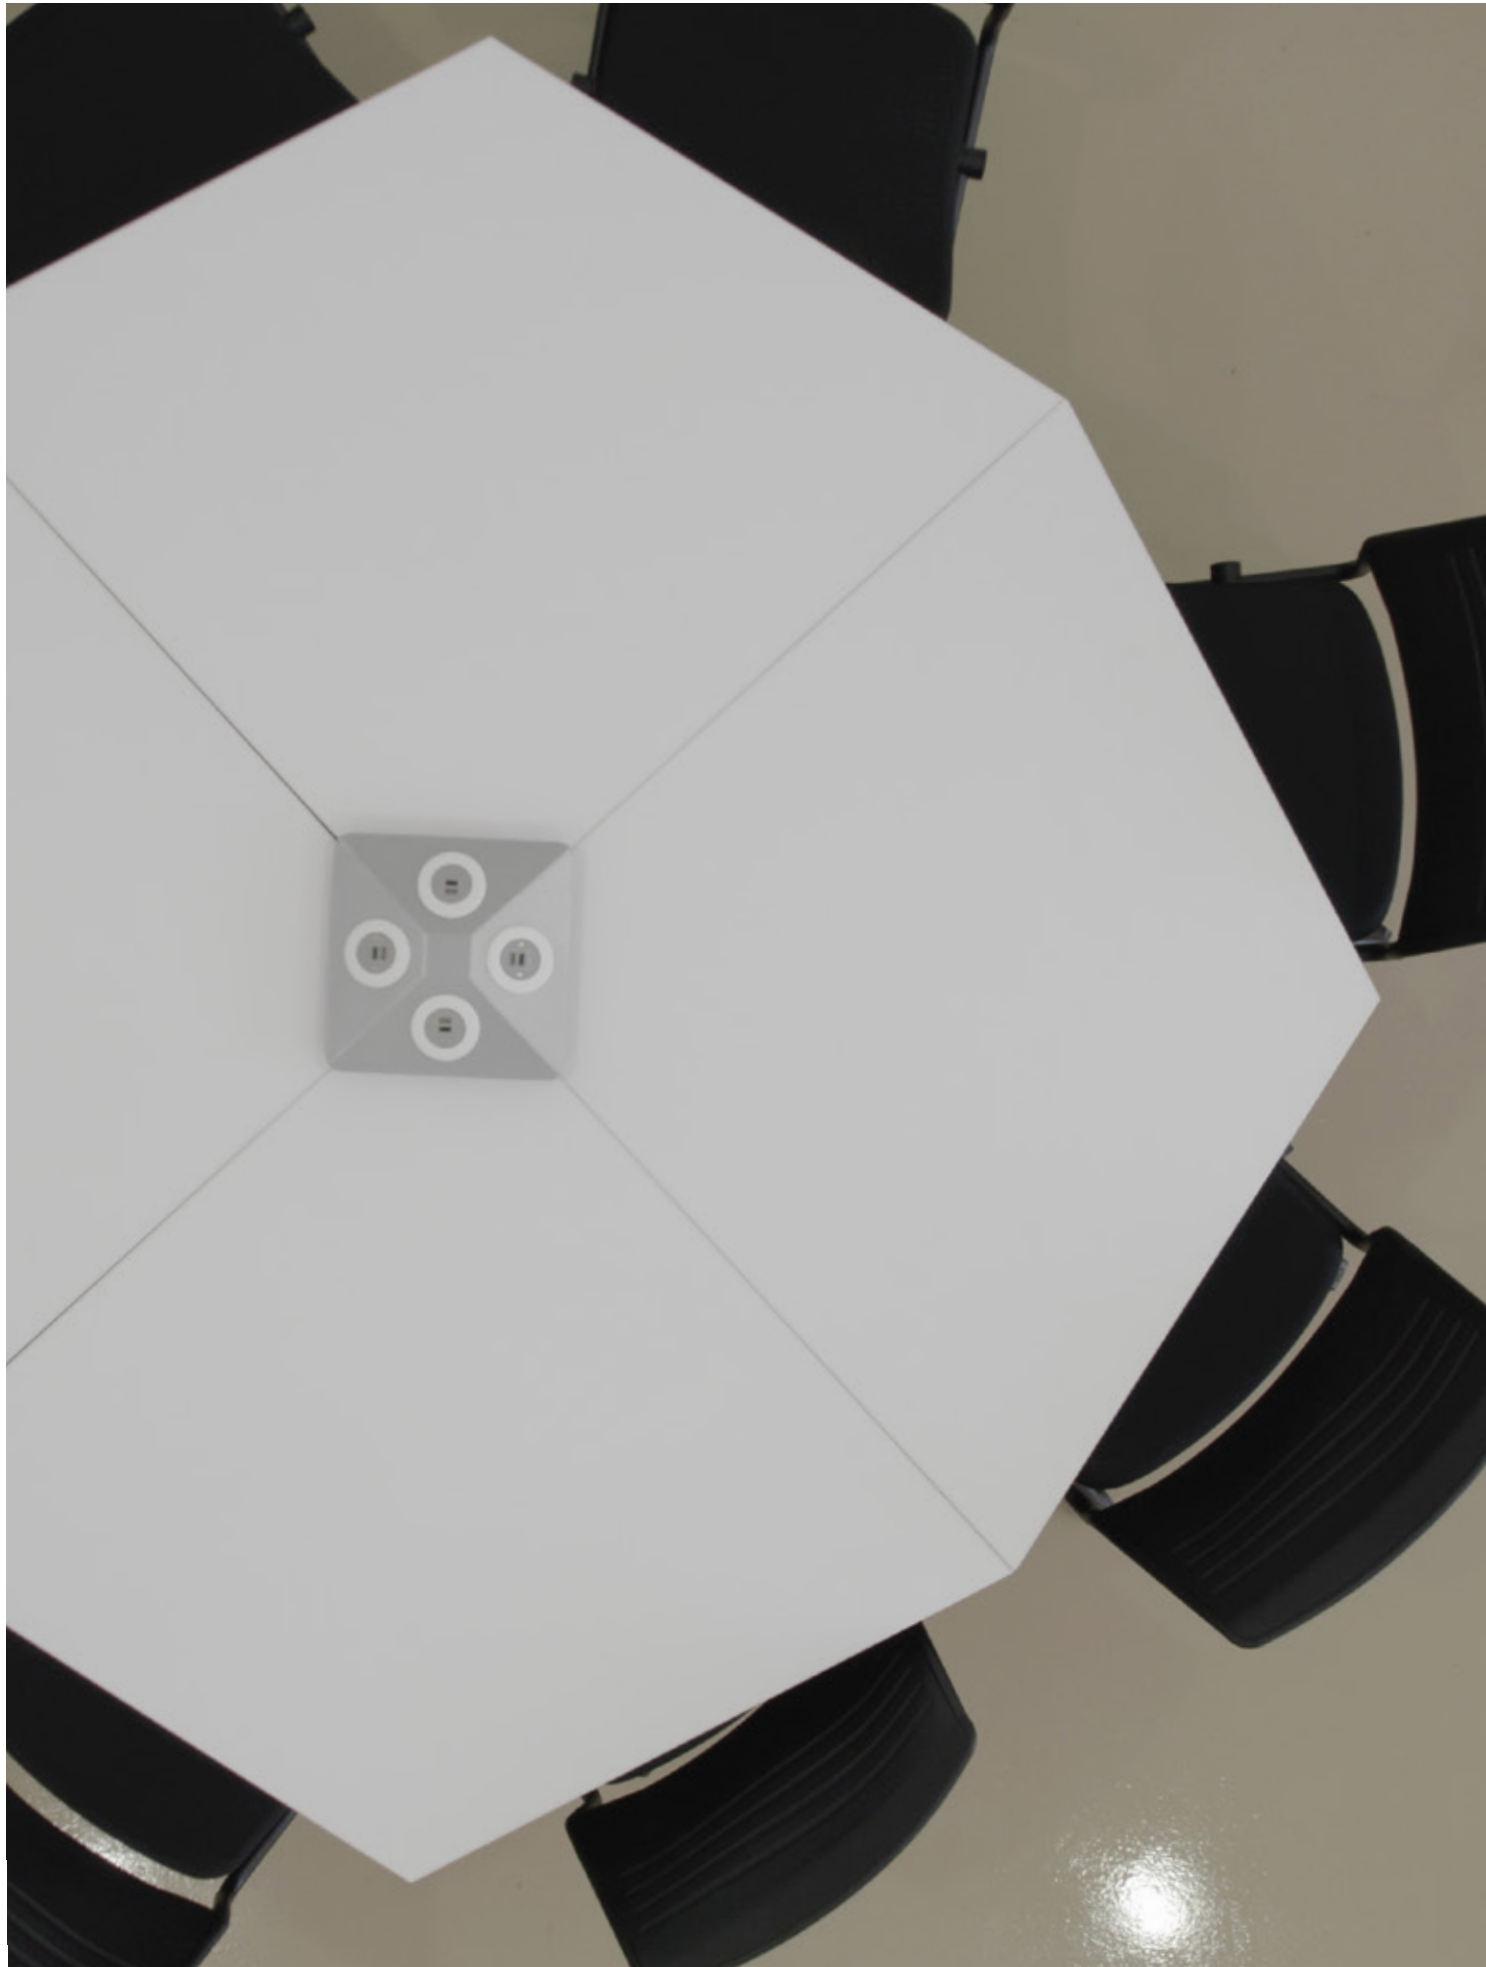

Go Storage

Robust storage units and carts available in an array of colors.

Juice Tree®

A mobile, wireless power tower designed to work with Kite®.

A-frame demount

A-Frame Demountable is an exciting update of our best-selling A-Frame bench, which now comes delivered boxed in a demountable format.

K-seat

The ideal chair for any classroom, breakout area, dining hall, cafe, exam hall and outdoor space.

Mini Mobile

Mobile, folding and nesting table system that is ideal for collaborative and solo learning.

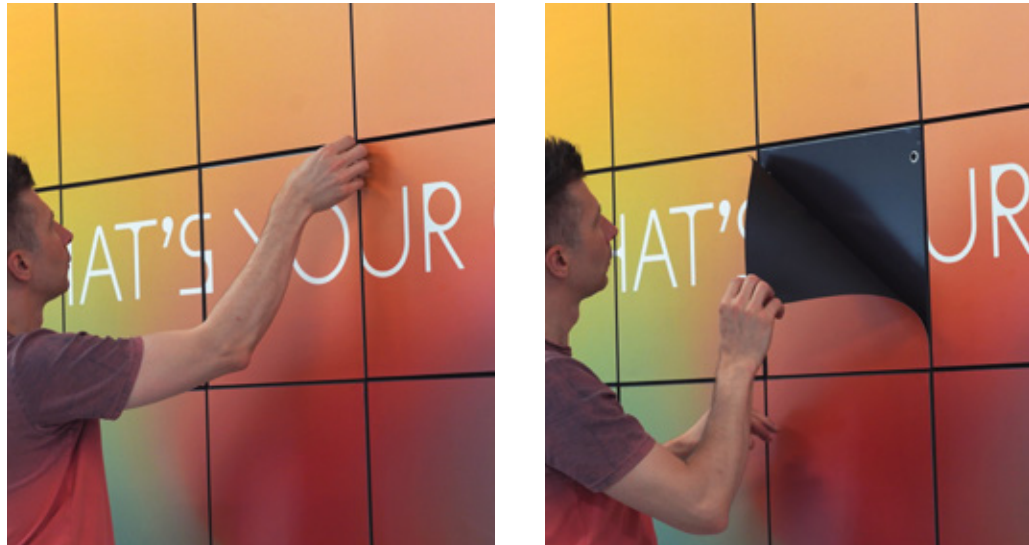

MBob

Comfortable floor seats available in a variety of colors, encourages new ways of working, learning and collaborating.

PXL

Peelable, magnetic visuals that can be freely arranged and rearranged on the wall.

Nook

The Nook is designed as a comfortable lounge chair for school lobbies, break-out areas, library projects or waiting areas.

Giant Donut

As the name tells us, nothing more than a giant donut that you can sit on.

K-stool

A stackable and highly durable stool.

Block

A robust and durable indoor/outdoor table and bench.

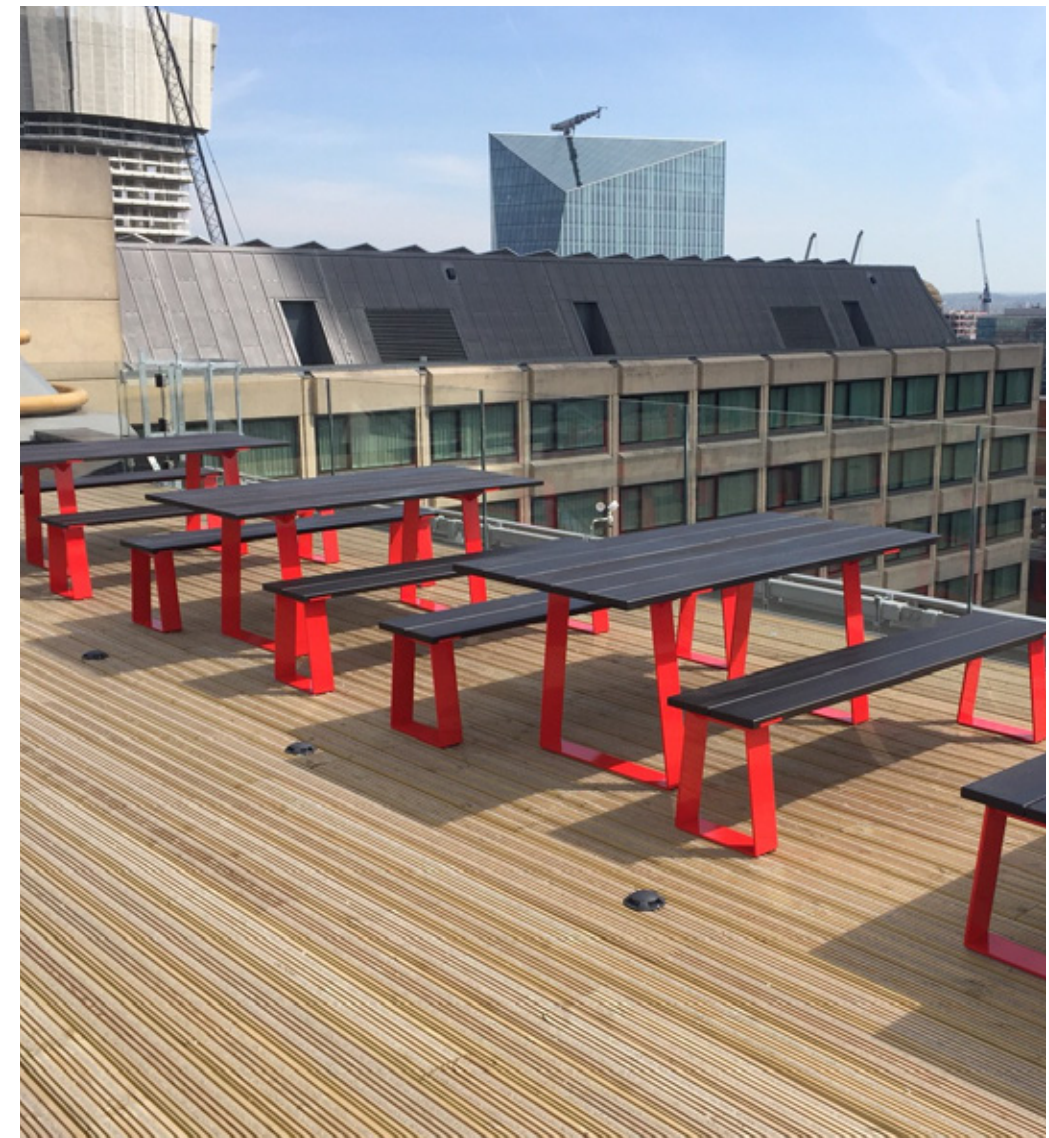

R2

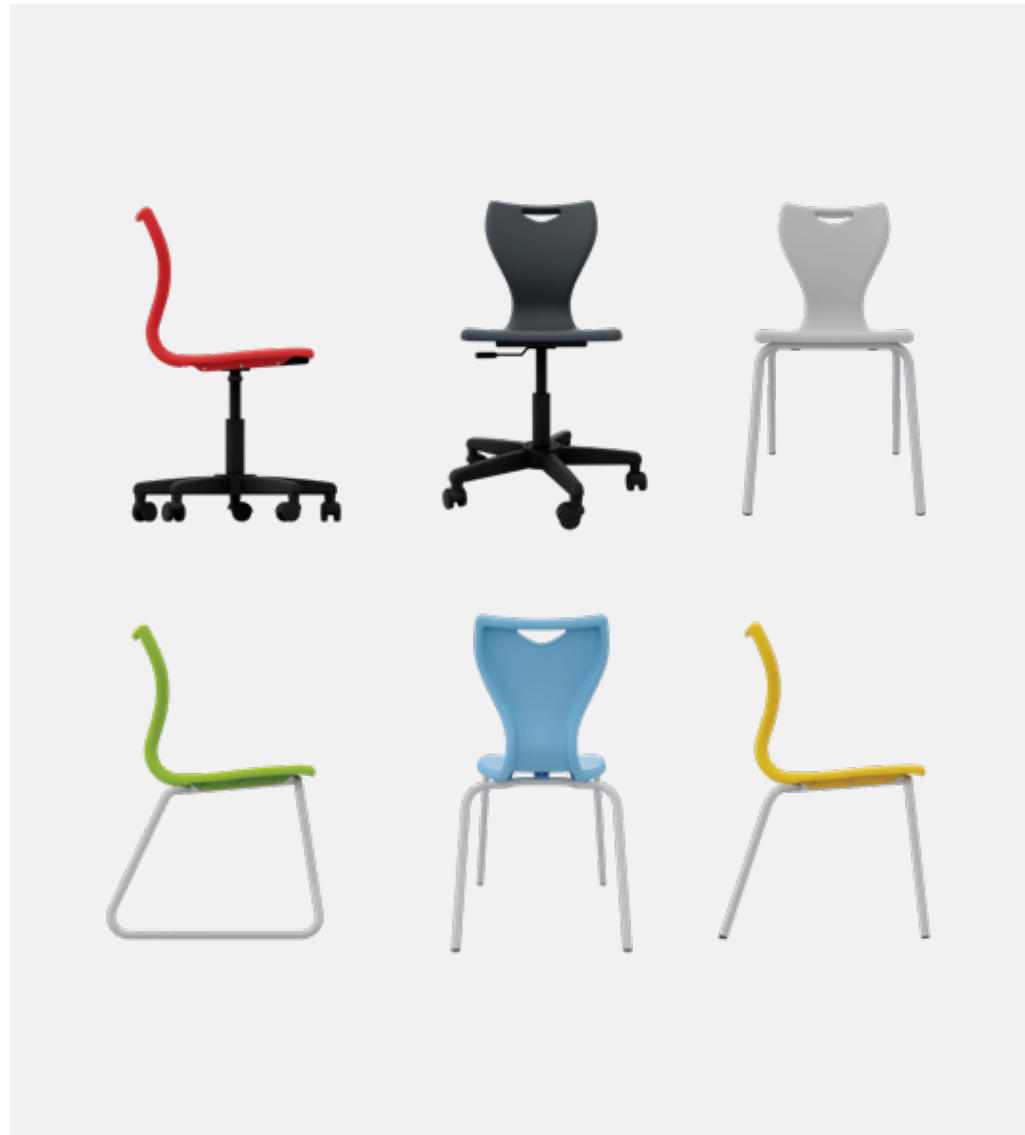

R2 is a mobile buffet which allows you to store your personal belongings in the recess under seat.

Edge

Edge was conceived as a dash of boldness for inside and outside space. Designed with a chunky aluminum base that looks splendid when powder-coated in a vibrant color.

MBob classic

A practical and colorful chair range for classrooms.

LJ2

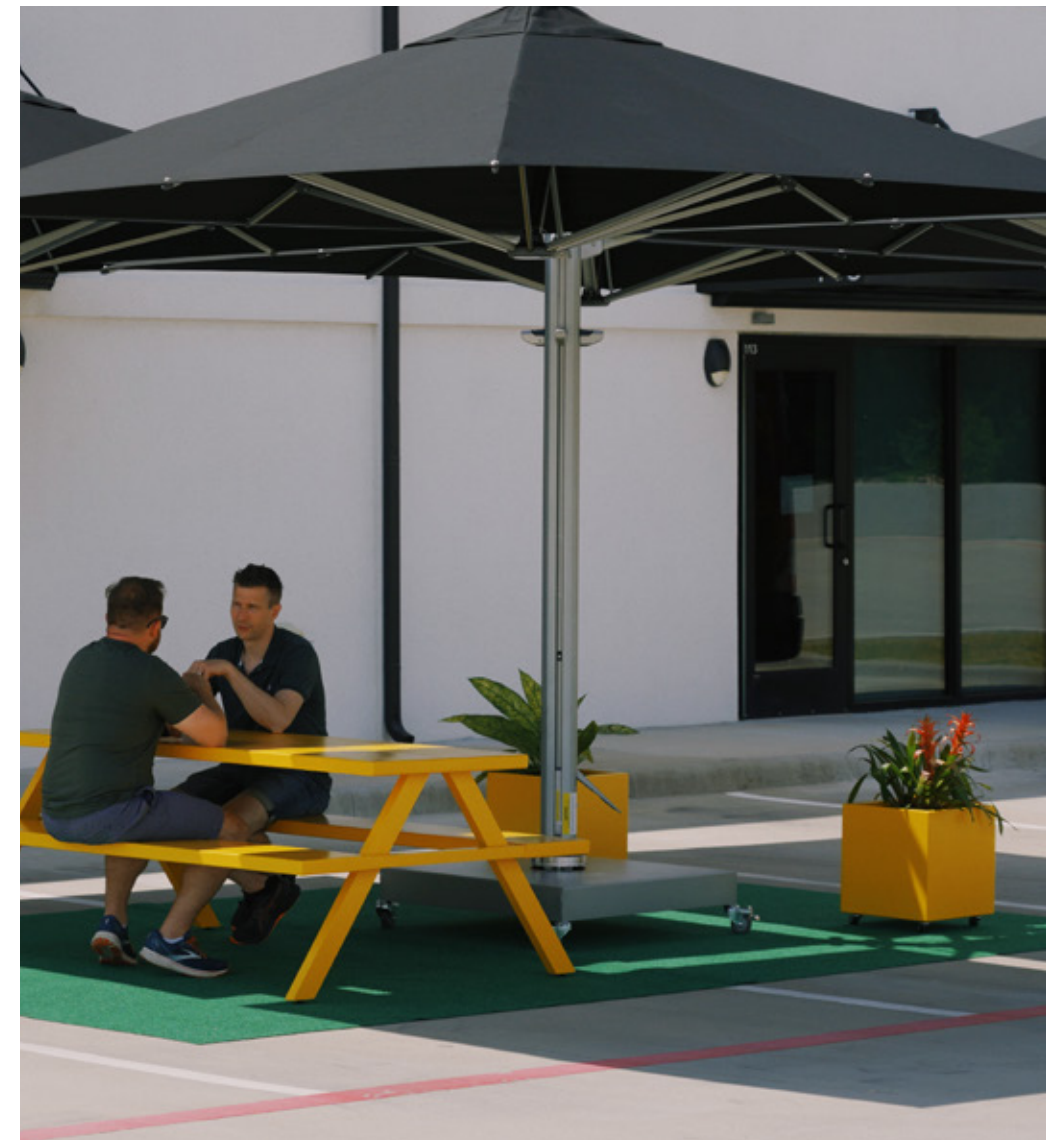

An elegant chair made out of recycled PET bottles.

Flomo table

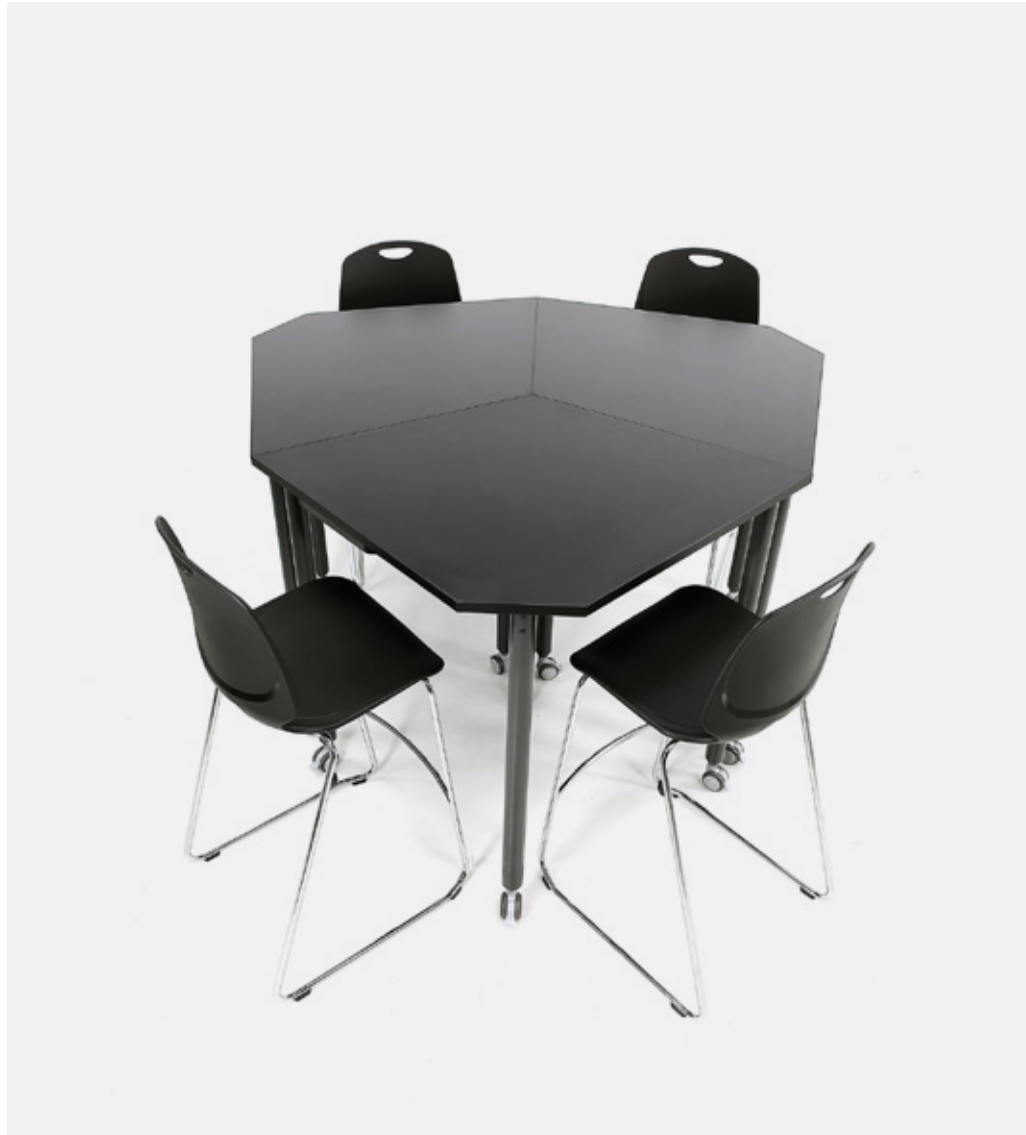

Use Flomo with Xbricks to make a writable table that can be used indoor and outdoor.

Shadowspec

A premium outdoor umbrella that gives you the ability to control your shade with ease. Gas-assist means it's easy to unfold the umbrellas.

Tall Kite[®]

A mobile, folding, standing height table system.

Puzzle

Fun, practical, safe and stimulating seats for learning environments, libraries and classrooms.

Trestle

All-metal indoor/outdoor table and bench.

Box Lounger

A cozy, acoustic box to work, relax or study in.

Bebop

Bebop active seats were developed as a fun way to strengthen core muscles and improve posture while sitting or perching.

M-Pod

A privacy chair for breakout areas in office, education and library spaces.

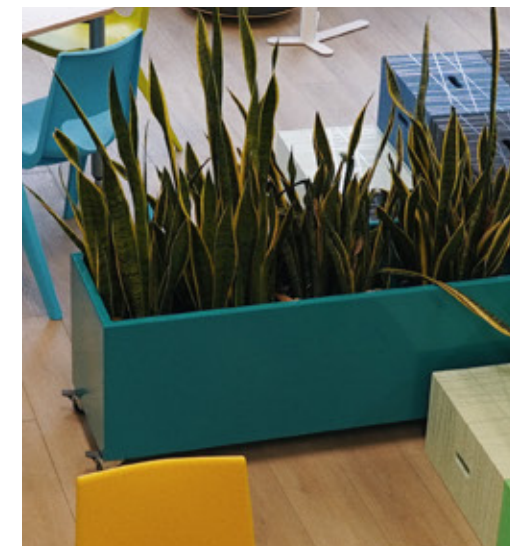

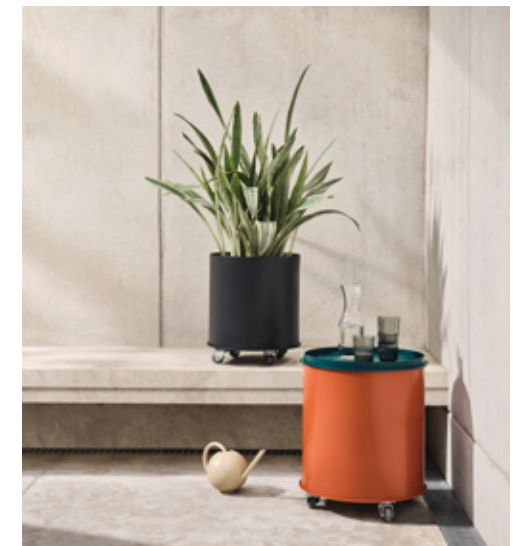

Linear

An all welded indoor/outdoor table.

Muzo Planters

Keeping plants and greenery at their best requires a bit of effort, so we've made the job as easy as possible with our range of mobile planters.

Signs

A modular seating system for education, public spaces, waiting areas and offices.

Q-rise

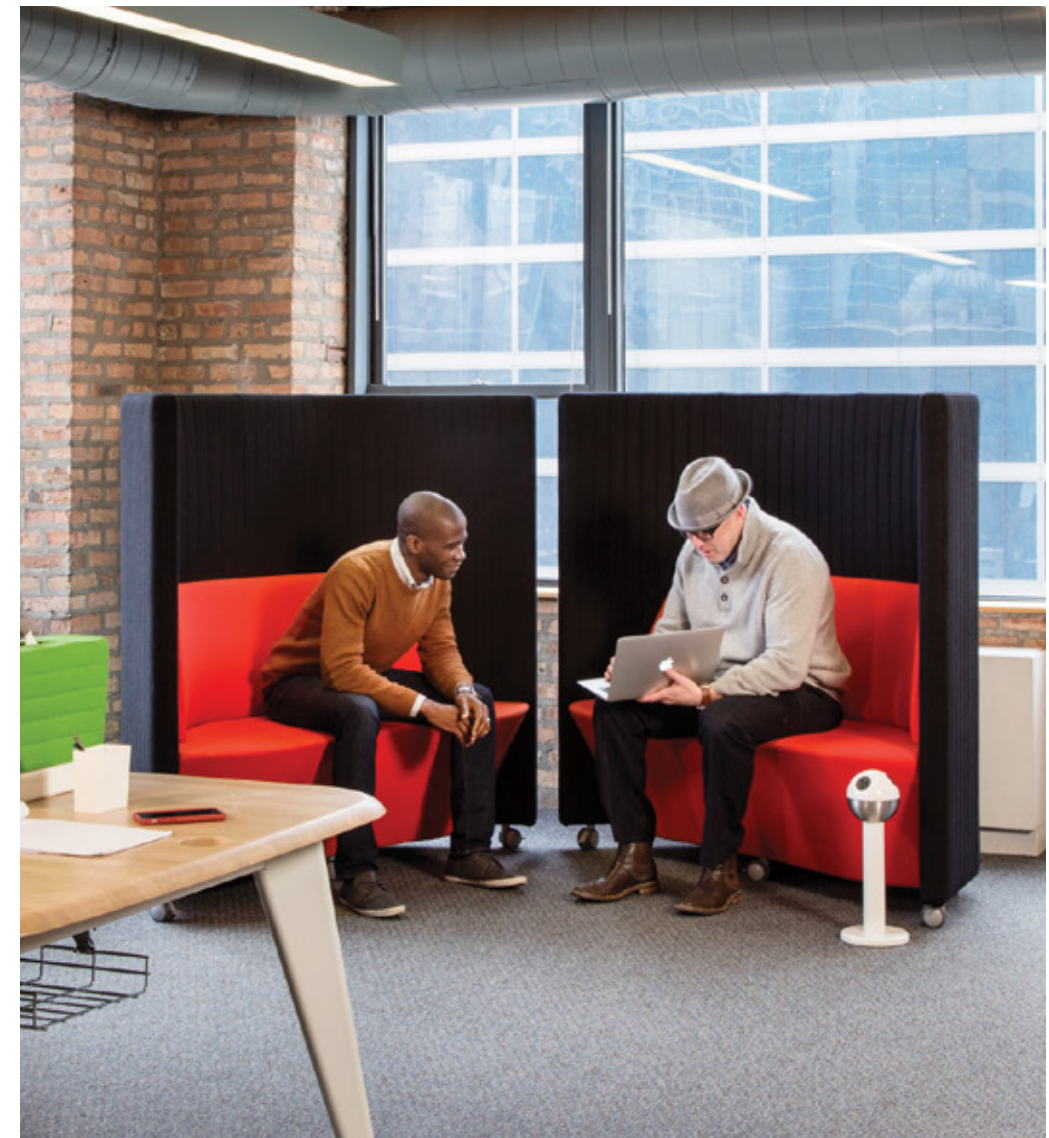

A battery powered height adjustable desk.

Love Seat

There's room for two with this wire frame lounge chair.
Works both indoor and outdoor.

Waltzer

A simple, mobile roll around sofa and workstation that provides multiple ways of collaborating and working within an open plan interior.

Alfresco Bench

Beautiful surfaces and a contrasting brushed stainless steel frame make Alfresco Bench a statement piece.

LJ3

With a felt seat made from recycled PET bottles, LJ3 is a stool that is both beautiful and functional in equal measure.

Lips

A comfortable and curvy rocking seat for schools, recreation and breakout spaces.

Space Chicken XL

A gas-assisted height adjustable table that allows you to maintain a comfortable and ergonomic working posture while sitting or standing.

X-table

X-table uses Xbrick as the frame which allows you to quickly shift the mode of learning and collaborating.

X-bench

X-bench uses Xbrick as the frame which allows you to quickly shift the mode of learning and collaborating.

Innov-8

Workstation and storage system in one.

Switch

A folding and nesting chair that integrates flawlessly with Kite®.

Qpac

A rechargeable battery with enough juice to wirelessly power a table for a day.

Daywalker

A playful side table.

Bot Builder

Specially designed to keep bot bits and pieces on the table and off the floor.

Alfresco Mini

Combining a brushed, stainless steel frame with either a solid Iroko timber top for outside use, or birch ply with tinted lacquer for inside.
